

Digital readers via Bookshelf

To use the digital reader in Bookshelf, you will need a Bookshelf account. If you already have one, you can log into Bookshelf. If you don't have an account yet, create one. Go to <https://bookshelf.vitalsource.com/> and register online. At the bottom right of the page, you can change the language.

After logging in, open Bookshelf and enter the received code in the top right, under 'Tools > Redeem code' and your digital reader will be available. You will receive this 'Redeem code' via email in your order confirmation if you have opted for 'Digital delivery'. You will also find this code in the details of your order in the order history on the portal.
